Ethics: All You Never Wanted to Know About How to Be Wrong	
<p>A 2.5-hour recorded lecture by Jeffrey M. Georgi (M.Div, CCAS, CGP) of Duke Medical School. In this engaging video lecture, Georgi examines the nature and “anatomy” of ethics, focusing on ethical challenges that face substance abuse counselors. His unique approach includes an unusual perspective on classic philosophy, a hard look at forces that compete with our ethics, and an anatomical look at the four levels of ethical decision-making. He ends in an elucidating adaptation of the “12 Steps” to ethical practice. A half-hour self-assessment rounds out this three-hour experience.</p>	<p>Target Audience: Counselors and other professionals meeting ethics education requirements. Registration Fee: \$35.00 Credit: 3.0 hours NBCC</p>
Evidence-Based Practices in Treating Persons with Severe Mental Illness
