Area Health Education Center  
*Connecting People, Education, and Health*

# *ICD-10-CM Training & Implementation Issues for the Provider Office*

## **Program Overview and Objectives**

This session will provide practice administrators, managers, coders, billers, clinical staff and /or other users a deeper understanding of the concepts for selection of the ICD-10-CM diagnosis codes and identify documentation & implementation issues that may impact a practice or office.

*Upon completion of the course, you should be able to:*

- Describe the structure and provide an understanding of each coding chapter of ICD-10-CM with chapter specific coding examples.
- Implement new chapter specific coding conventions and official ICD-10-CM coding guidelines.
- Identify current documentation issues to help your practice formulate documentation and training needs for practitioners to document more specifically for ICD-10-CM.
- Explain the use of General Equivalency Mappings (GEMS) files to locate ICD-10-CM codes.
- Describe key elements, timelines, and useful strategies to address a successful ICD-10 operational implementation specifically from a Practice Administrator and/or Office Manager perspective.
