

Sexual Side-effects of Psychotropics

Web-based Conference

July 28, 2010
12:00-1:00 p.m. (EST)

Presented by:

Xavier Preud'homme, MD

Assistant Professor of Psychiatry and Behavioral Sciences; Assistant Professor in Medicine Department, Psychiatry and Behavioral Sciences

Objectives:

- 1) Review the association between the three phases of human sexual response and different neurotransmitters.
- 2) Discuss why psychotropics are so prone to interfere with sexuality and how so.
- 3) Describe how sexual side effects from psychotropics can be best managed in clinical practice.

Target Audience:

Family physicians, psychiatrists, and mid-level providers (PA's, NP's) practicing in family medicine, interested nurses and mental health providers.

Fees:

These web conferences are free to the first 30 people who call in. Space is limited to 30 participants. Credit is not being offered, and there is no registration for this program.

Questions and Suggestions:

For more information, contact Brenda Leitner at (910) 678-0112, or Brenda.Leitner@sr-ahec.org.

Americans with Disabilities Act:

No individual with a disability is excluded, segregated or otherwise treated differently from any other individual. If you need any of the auxiliary aids or services identified in the Americans With Disabilities Act of 1990 in order to attend any of these programs, please call (910) 678-7241.

Our Promise to You:

Southern Regional AHEC strives to offer the highest quality educational programming. If, for any reason, these programs do not meet your needs, please let us know. We value your feedback and will resolve the issue to your satisfaction.
